

KH-MH500 WHEELCHAIR PLATFORM SCALE

Weigh Packs KH-MH500 wheel chair scale offers the user easy and safe access via built-in entry and exit ramps, reducing patient disturbance. Portable lightweight aluminium design includes wheels and handles located on its side to make moving the scale from place to place an easy task. Ideally suited in a vast range of medical applications for either use with wheel chairs or as a personal stand on scale. Its 500kg capacity can be set up at 300kg x 100 grams or 500kg x 200 grams and cover a wide range of weighing applications. The scale includes desk / wall mountable indicator with an 25mm BRIGHT BACKLIT

DISPLAY, with low power and over load indication. A mains adaptor is also included. The SCAIME European built indicator also includes a filter that averages out involuntary movement to give you an accurate weight display every time.

Heart of the weighing system is the renowned and dependable KELBA load cells which are IP67 rated and will withstand all the rigors of constant daily use.
